

END USER LICENSE AGREEMENT (EULA) for eInvoiceToolkit

By downloading, installing, or using **eInvoiceToolkit**, you agree to the following terms. If you do not agree to these terms, you must not use the software.

§ 1 Grant of Licence and Use

- eInvoiceToolkit is provided to you as free software (freeware).
- You are granted a non-exclusive, non-transferable right to use the software for your own private or business purposes.
- This licence authorizes use of the supplied program files subject to these terms. You are not entitled to any particular features, any particular level of availability, or the provision of future versions.

§ 2 Trademark Rights and Notice Regarding GnuCash

- **GnuCash®** is a registered trademark of its respective rights holders.
- This product is independent software and is not affiliated with the developers or operators of GnuCash. It is neither endorsed nor supported by GnuCash, nor is it officially distributed by the GnuCash project.
- The product accesses data exclusively through the database used by GnuCash. It contains no components of the GnuCash software and is not part of that software.
- The name "GnuCash" is used solely to describe compatibility with, or support for, the database. It is not used as part of the product name or to indicate any official affiliation.

§ 3 Use of the Software and User Responsibility

- The software is developed and tested with reasonable care. Nevertheless, it cannot be ruled out that it may contain errors, limitations, or malfunctions.
- The software reads GnuCash databases and processes the data obtained from them. The provider has no control over the accuracy, completeness, or integrity of this data, or over changes to the GnuCash database structure.
- You are responsible for checking the accuracy and completeness of invoices, documents, and other outputs generated from the imported data before using them, and for independently assessing whether they are suitable for tax, legal, or other purposes.
- You are responsible for making appropriate, regular backups of your data. The software should not be used as the sole or authoritative means of retaining or backing up business data.
- The liability provisions in § 4 remain unaffected by these notices.

§ 4 Liability

- The software is provided free of charge. Accordingly, the provider is liable only for intent and gross negligence. The provider is liable for defects in the software only if such defects were fraudulently concealed.
- Notwithstanding paragraph 1, liability remains unlimited for injury to life, body, or health; where a guarantee has been assumed; under the German Product Liability Act; and in all other cases where liability cannot legally be excluded or limited.
- Liability for ordinary negligence is excluded. This applies in particular to damage caused by data loss, incorrect or incomplete invoices, and consequential losses such as lost profits, additional tax payments, or late-payment surcharges.
- The liability provisions in this section also apply for the benefit of the provider's employees, representatives, and agents.
- Your statutory rights remain unaffected to the extent that they are mandatory.

§ 5 Copyright and Restrictions on Use

- All copyrights and other intellectual property rights in the software remain with their respective rights holders.
- This licence grants only the rights of use expressly stated herein. In particular, it does not grant access to the source code or any rights to modify, further develop, or independently exploit the software.
- Distributing the software to third parties, publishing copies of your own, or making the software available for download by third parties requires the prior consent of the rights holder.
- Mandatory statutory rights, in particular legally permitted acts necessary to achieve interoperability with other programs, remain unaffected.

§ 6 Updates and Support

There is no entitlement to updates, bug fixes, further development, maintenance, or technical support. The provider may discontinue the further development or distribution of the software at any time, unless mandatory legal obligations provide otherwise.

§ 7 Termination of the Right to Use

If you breach these licence terms, the provider may terminate your right to use the software in accordance with applicable law. Once the termination becomes effective, you must cease using the software and delete any existing copies, unless statutory retention obligations or other rights provide otherwise.

§ 8 Governing Law

German law applies, unless mandatory statutory provisions provide otherwise.

§ 9 Final Provisions

If any provision of this licence agreement is or becomes invalid, the remaining provisions shall remain unaffected. The applicable statutory provisions shall apply in place of the invalid provision.
